

Supply List

Easy and Fabulous Straight Line Ruler Work

Jenny K. Lyon

- Your best machine for free motion quilting.
- Manual for machine. Please make sure you know how to set up your machine for free motion quilting before class.
- Ruler foot for your machine. I strongly suggest the foot made specifically for your brand of machine. Any generic ruler foot or any foot that fits a variety of brands will not be as good as the one made for your brand. They are expensive and may need to be ordered by your local quilt shop.
- Quality thread, preferred 50 or 60 weight, neutral color. If you go out and buy thread, Aurifil is a good choice, it behaves well.
- Wound bobbin (same thread choices as above).
- Extra empty bobbin.
- Size 80/12 topstitch needles for your machine.
- Scissors or snips.
- Other free motion notions that you normally use at home (gloves, slider, straight stitch plate?). Please note, I bring a small store with my favorite free motion quilting supplies, available for purchase for a reasonable cost.
- Note taking supplies.

NOTE: The provided kit includes a quilt sandwich with a pre-printed panel (markings will wash out) and a unique straight line ruler.
